

QASHQAI

Taking QASHQAI to the next level

With the launch of the first generation Nissan QASHQAI in 2006, Nissan pioneered the now incredibly popular SUV segment globally. Nissan New Zealand introduced the first generation QASHQAI in 2007 and the vehicle quickly became a best-seller in the Nissan range.

Now, meet the all-new Nissan QASHQAI. Bolder and even better equipped, the QASHQAI is also safer thanks to new safety technologies and driving aids aimed at supporting you on the road.

Images and descriptions shown are for guidance purposes. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option. Overseas pre-production QASHQAI TI-L with optional two-tone roof shown throughout.

A New Form of Expression

QASHQAI brings a new vision to crossover design with muscular proportions, a vibrant palette including a variety of two-tone colour options*, brilliant LED lighting, low-profile aluminium roof rails~ and imposing 19" alloy wheels~.

Refined design and seductive functionality

Everything about the interior of the Nissan QASHQAI feels advanced and premium. From its steering wheel to its centre console, everything has been ergonomically designed for total driving comfort. Enhanced screen visibility and seamless tech integration helps you stay alert and focused on any drive.

Appreciate the clarity of the 10.8" Head-up display*, 12.3" TFT Advanced Drive-Assist® Display instrument cluster* and 12.3" infotainment display^.

The three large screens work together in perfect harmony for a safer, clearer, more optimised driving experience.

Fast (15W) wireless charger#

10-speaker BOSE® audio system*

*Available on Ti-L only.
^Available on ST-L and above.
#Available on Ti and Ti-L only.

Your personal space has never felt more personal

Relax in ergonomically designed seats and feel the comfort on even the longest journeys with optimised lumbar support. Been a long day? With premium-quilted leather-accented seats in the Ti-L **, activate QASHQAI's massage seats*, for both driver and passenger, and feel the stress disappear. With the addition of quality finishes throughout and enhanced safety, thanks to a new central airbag, there's even more refinement and peace-of-mind for all the family.

*Massage Seats are only available on Ti-L grade.
**Leather accented features and upholstery may contain synthetic material.

CENTRAL AIRBAG

Room for everyone. And more

Nissan QASHQAI combines a spacious interior and generous boot space with a compact, city-friendly exterior for easy manoeuvrability. Passengers sit in comfort with room amongst the best in its segment, thanks to a bigger cabin, easy access and easier child seat fitment with an 85° rear door opening, plus thoughtful small touches like two USB charging ports and rear air vents for rear passengers.

Ti-L interior shown.

Handsfree power tailgate*

UP TO 429L BOOT SPACE

ST / ST-L / Ti	429L
Ti-L	418L

UP TO 1,524L WITH FOLDED SEATS

ST / ST-L / Ti	1,524L
Ti-L	1,513L

Unexpected cargo capacity

Up to 1,524L of space means the QASHQAI is ready to carry everything you need. Two luggage boards* offer 16 boot configurations for maximum flexibility, whatever your cargo. Smart features like the Nissan handsfree power tailgate* and wide opening rear doors take the hassle out of packing and unpacking, so you can make the most of your precious days out.

*Available on Ti-L only.

Safety at its heart

Every QASHQAI is equipped with advanced safety technologies designed to watch the road, help to keep you safe and give you maximum peace of mind.

INTELLIGENT CRUISE CONTROL helps you to keep your distance. It measures the distance from the vehicle ahead, controlling acceleration and deceleration to help to maintain a suitable following distance within your set speed.

INTELLIGENT FORWARD COLLISION WARNING keeps an eye up to two vehicles in front of you. When the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down.

INTELLIGENT REAR AUTOMATIC BRAKING helps you back up with confidence. If an object is detected behind your vehicle, the system can automatically engage the brakes to help avoid a collision.

EMERGENCY LANE KEEPING A full suite of technologies to help you avoid unintentional lane departure. Keeps you centered in the lane using either a steering wheel action* or braking in an emergency situation.

INTELLIGENT FORWARD BRAKE & JUNCTION ASSIST Monitors the surrounding area in front of the car for vehicles and pedestrians, helping avoid or reduce damage caused by collisions with Junction Assist assisting further by monitoring what is around corners.

Shine a light on safety

The QASHQAI is ahead of its segment in offering Adaptive Driving Beam* Technology. It splits the high beam into 12 individual segments, automatically turning off segments which could dazzle oncoming drivers. Maximum visibility for you and for those around you.

*Available on Ti and Ti-L grades only.

Tight spot? No problem

If you hate parking, you'll love Nissan QASHQAI. The new digital high resolution Around View Monitor* gives you a 360° view of your car, with selectable focus on the front, rear and kerbside view to help you park with confidence and control. Nissan QASHQAI Ti-L grade is also equipped with Intelligent Park Assist, offering automatic parking space detection and fully automatic control of the steering, with the driver taking care of the braking and accelerator when parking. Now parking really is child's play.

Rear camera see what's right behind you.

Side camera flick the switch to see the kerb.

All-around view gives a virtual 360° birds' eye view as you manoeuvre.

Front camera gives combined front and overhead view for perfect parking.

*Available on ST-L grade and above.

ProPILOT

The QASHQAI includes ProPILOT[†], ensuring comfortable, relaxed driving on major roads. ProPILOT is convenient and easy to use. Simply enable the system with the touch of a button on the steering wheel. It is a hands-on driver assist system that combines Nissan's Intelligent Cruise Control and Steering Assist technologies and includes a stop and hold function that can bring the vehicle to a full stop. If you're stopped, it will hold you in place and bring you back up to speed when traffic starts moving again. This technology supports a smoother drive, helping you keep safe in your lane, whilst assisting in maintaining an ideal and safe distance from the vehicle in front, whatever the gradient.

[†]Available on Ti and Ti-L only.

ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/Hands On" for highways only (road separated by Barriers).

It is the driver's responsibility to stay alert, drive safely and remain in control of the vehicle at all times.

ST

Specification:

- 17" alloy wheels
- Multi-link rear suspension
- 8" touchscreen display with Apple CarPlay® and Android Auto™^
- 7" TFT Advanced Drive-Assist® Display instrument cluster

Nissan Intelligent Mobility guides everything we do. At Nissan, we use new technologies to transform cars from mere transportation. Together the journey is more confident, connected, and exciting. Whether it is cars that share the task of driving or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
