NISSAN PATHFINDER

With unrivalled space and superior comfort, the 7-seat Nissan Pathfinder is the family SUV that's going places. Its clever design and effortless technology ensure that every member of the family is ready for adventure. The only question is... **Where to next?**

FAMILY ADVENTURES REDEFINED

EASE INTO ANOTHER GREAT ESCAPE

With the innovative EZ Flex[™] seating system, comfort and accessibility sit side by side. The second row reclines as well as folds for easy access from both sides while the third row can recline for passenger comfort. And with LATCH AND GLIDE[®] technology, you can even tilt and slide the right-side of the second row with an ISOFIX-compatible child seat in place so access to the third row is easier than ever.

COMFORT TIMES SEVEN

Comfort is a high priority in the Nissan Pathfinder. As well as boasting 7 theatre-style adult sized seats, it features tri-zone climate control, large windows throughout and a panoramic glass roof* that brings natural light and scenery to your ride. Each and every passenger can travel in comfort with second and third row seating featuring a flat floor, arm rests, individual cup holders and loads of legroom.

*ST-L and TI models only.

YOU'RE INVITED TO AN ADVANCED SCREENING

It's hard to please everyone, but with tri-zone entertainment available on the Nissan Pathfinder Ti, you actually can. The rear monitors can play individually, giving a choice of DVD, video games, photos and more that you can control from the audio system's 8.0" multi-touch screen. And with those at the back wearing wireless headphones, you can adjust the audio system to play only in the front, letting you enjoy your own choice of entertainment in perfect harmony.

Bose® Premium Audio System*. With 13 optimally-placed speakers and Acoustic Waveguide technology, the Bose® audio system fills the air with crisp, clear highs and rich, deep bass.

DRIVERS ARE IN FOR A TREAT

It's not just the passengers who get it good. The Nissan Pathfinder sports some seriously impressive touches specifically designed with the driver in mind. It starts with the Intelligent Key®, which lets you unlock the doors and start the engine with the push of a button, without even taking the key out of your pocket.

Further to that there's an 8" touch-screen, satellite navigation with traffic monitoring* and an Advanced Drive-Assist™ Display which monitors tyre pressures, fuel use and much more. Each model also offers Bluetooth® connectivity with voice command for audio streaming and hands-free phone use. Connectivity is further enhanced by twin USB ports so you can connect and charge almost any device, and control them using the easy-access steering wheel controls or the touch-screen.

Add to that the 8-way power adjustable driver seat, driver position memory†, heated* and cooled† front seats and plush leather-accented black or ivory seat trim*^, and you've got a vehicle you'll just love to drive.

*ST-L and Ti models only. †Ti models only. #4WD models only.

ADVANCED DRIVE-ASSIST™ DISPLAY

Safety is paramount when driving your family. That's why the smart technologies in the Nissan Pathfinder are designed to provide crucial information at-a-glance, and can be effortlessly controlled from the steering wheel.

DRIVING AIDS*

TYRE PRESSURE MONITORING SYSTEM

4WD TORQUE DISTRIBUTION#

LOOK OUT BELOW

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.

COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round-out your virtual 360° bird's eye view, whether you're in Drive or Reverse.

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch-out the overhead for a side view. A great help for seeing how close you are to the kerb.

DON'T BUMP YOUR NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up - without going too far.

INTELLIGENT AROUND-VIEW® MONITOR

360 WAYS TO BE MORE AWARE

When it comes to parking, it's nice to see more than just what's directly behind you. That's why the Nissan Pathfinder features Intelligent Around-View® Monitor with Moving Object Detection* using four cameras to give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear and curbside views. And across the whole range, you'll find Predictive Path technology which uses a rear camera and rear sensors to ensure that when reversing, you can always get a better look.

*ST-L and TI models only. Driver's aid only. Always check surroundings before moving vehicle.

INTELLIGENT CRUISE CONTROL

SET IT ONCE AND GO WITH THE FLOW

Unlike traditional systems that only maintain a set speed, the Nissan Pathfinder's Intelligent Cruise Control* also helps maintain an adjustable set distance between you and the car in front. As traffic slows down or speeds up, the Nissan Pathfinder responds accordingly.

NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together we can make the journey more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today. **Where to next?**
