

Kia Stonic

Life is what you make it

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving.

It's why we create the spaces and the time you need to bring ideas to life. Very like the experience that awaits you behind the wheel of every Kia. With our design, space innovation, purpose driven technology and built in sustainability, we aim to inspire every time you encounter the Kia brand.

Because you never know where your next big idea awaits. But they are out there. Waiting to be discovered. So, what are you waiting for? Get moving. Get inspired.

Performance at its finest

Created for drivers who grasp every moment, push every boundary and relish every adventure, the all new Kia Stonic brings fresh excitement and a free spirit to the crossover experience. With its sleek muscular body, sporty compact styling, exceptional handling and outstanding performance - the Kia Stonic is for those who demand more from life.

Stonic is much more than sharp styling. Under the hood lies a masterclass of modern engine technology. The Stonic features Kia's latest high-efficiency Smartstream engine. All get up and go, it makes driving so rewarding, whether you're negotiating urban traffic or heading for the hills.

In the LX model, the 1.4L DOHC engine with six-speed auto is willing, responsive and smooth, making for effortless driving.

The secret is Continuously Variable Valve Duration (CVVD) technology. This lets the engine switch seamlessly between different combustion cycles according to load, maximising efficiency in all driving situations.

Exclusive to the LX-T, GT Line and GT Line Plus models, Kia's acclaimed 1.0L GDi Turbo engine paired to a seven-speed dual clutch transmission is utmost capability and pure class. The two combine to provide a more spirited drive, together with reduced weight and lower fuel consumption.

Stand out from the crowd

They will see you coming. Stonic features bold and assertive front styling, with the signature Kia 'Tiger nose' grille set between distinctive LED headlights. On the LX and LX-T models, static bending light is designed to illuminate the path around corners while turning at low speed, offering improved visibility and a safer nighttime driving experience. Performance-driven styling continues, with large lower and side intakes directing airflow to the engine and wheel wells.

From behind, the agile Stonic makes an equally striking impression, with its dramatically raked, rear window capped by a purposeful spoiler. Three-dimensional LED rear combination lights is another standout feature on the GT Line Plus model. The muscular fenders, bumper and airflow-regulating skid plate project strength and practicality.

The Stonic comes in refreshingly bold and lively colours which accentuate its dynamic contours. You can even make your Stonic two tone by choosing the black roof option to complement your desired body colour.

Blind Spot Collision Avoidance Assist (BCA), Smart Cruise Control (SCC) and Lane Follow Assist (LFA). Rear Cross Traffic Collision Avoidance Assist (RCCA) and front and rear parking sensors are available, as well as a rear view monitor with dynamic guidelines, indicating the path you're on while reversing.

All Stonic models are fitted with six airbags throughout the cabin, as well as ISOFIX child-seat tether and anchor points.

Anticipate the unexpected

With Stonic, being at the wheel is more than satisfying and exciting. Whether you're parking, negotiating city streets, or on the expressway, the latest high-tech driver assistance and advanced safety features watch out for trouble, alert you, and even step in, to help you stay in the clear.

Stonic features several of Kia's latest Advanced Driving Assistance Systems. These include Forward Collision Avoidance Assist (FCA) with pedestrian, vehicle and newly-introduced cyclist recognition, Lane Keep Assist (LKA), Driver Attention Alert (DAA),

Dynamic in every way

A large 8.0 inch touchscreen display comes as standard on all Stonic models. The infotainment system features Bluetooth® multi-connection, allowing you to connect two mobile devices at the same time - one for hands-free phone and media, the other for media only.

The driver is also rewarded with a new higher-resolution 4.2 inch digital display in the instrument cluster. And the high tech doesn't stop there. Wireless Apple CarPlay™ and Android Auto™ are standard in the LX, LX-T and GT Line models, removing the need to connect your smartphone via a cable.

In the cabin, clean, sculpted contours please the eye, and driving is uninterrupted fun.

The steering wheel is shaped to stay clear of your legs and the shift knob and other controls are positioned for quick engagement. Staying focused is the name of the game.

A compact SUV like the Stonic is designed to put dreams and plans in motion. Its spacious interior and cargo flexibility make it easy to set out on adventures, and get more things done in the course of the day.

Take it to another level with LX-T and GT Line

Feel the power at your feet in the Stonic LX-T, GT Line and GT Line Plus. With its 1.0L Turbo GDi engine, 7-speed dual clutch transmission with Idle Stop & Go, and 17" alloys, performance is increased by more than a notch.

GT performance comes with GT looks. Up front, the Stonic LX-T, GT Line and GT Line Plus have a glossy black and dark chrome radiator grille, LED fog lights and an exclusive front bumper. Inside, the carbon fibre finish fascia and cloth and synthetic leather trim give the cabin an air of real purpose. Aluminium foot pedals and a D-shaped performance steering wheel confirm the sporting credentials of the LX-T, GT Line and GT Line Plus.

Exclusive to the Stonic turbo range, the Drive Mode Select system allows drivers to customise their vehicles' performance to suit particular driving needs, offering 'Eco', 'Sport' and 'Normal' modes.

Eco-Conscious

So you value sustainable living? We do too.

That's why we take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

Our environmental research centre spearheads our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow for you, your children and all of us.

From design through to recycling, we create innovative products, adhering to state-of-the-art Design for Recycling (DfR) guidelines. Even at the end of your car's life, we aim for eco-friendly return and treatment.

Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environment protection.

As you can see, what you do on a small scale with your household refuse, we at Kia do on a large scale.

5 Year Factory Warranty Quality Redefined

All new Kia Passenger Vehicles come with an impressive 5-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

5 Year Roadside Assist

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

5 Year Incident Care

If you and your new Kia were unfortunately involved in an incident or crash that requires body repairs to your Kia, Kia Incident Care is here to help you, and is free for the first five years.
